at

BITOSA Birds fly over the entire GLOBE. Be it Health-care of an American at Pennsylvania, USA or Launch of MANGALAYAN from Shriharikota, India, BITOSA is everywhere.

...JAHAN JAYEEYEGA, HUMEIN PAYEEYAGA...(...जहाँ जाईयेगा... हमें पाइयेगा...)

We all know, these flying wings were attached in us by BIRLA INSTITUTE OF TECHNOLOGY, MESRA in those FOUR years.

Being a part of BITOSA is a pride that we all carry throughout our life! It's an achievement by itself.

It's time now to think and look on the new birds with budding wings at MESRA. Like us, they also have the self strength, they will also fly. But, we, the BITOSA, can definitely put some manure to enable these SAPLINGS (in the field of Technology) to bloom with greater greenery which will yield Larger Flowers & Fruits.

BITOSA, in the above endeavour, is organising a conclave ACADEMIA INTERALIA 4.0 on 13th July 2019 at MECON Community Hall, Doranda, Ranchi to put forth BITOSA'S COMMITMENT towards the ALMA MATER.

So, all the new birds of BIT, give a big pat on your back and buckle your shoes, spread your wings to fly higher and higher.....
